Flying Hydros To Vie For Honors At Donner Regatta

By Carson White

Flyweight hydros will skip over the blue waters of Donner Lake this Saturday and Sunday while vying for trophies on the 4/5 mile circular course set by the Northern California Outboard Association.

Tryouts on Saturday will weed out the more timid pilots and the first of 22 heats will get underway at 10 a. m. Sunday, September 16. The Sierra resort area expects 10,000 fans will witness the five racing runabout and six outboard hydro classes pushing speeds from 60 to 95 mph.

Spectacular spills usually accompany these "alky burners" to add excitement to the Donner Lake Regatta. A star-studded cast of drivers including several regional and national champions will compete. Among them will be 19 year old Janet Herrick of Sacramento in the B Hydro Class. Her first time out at Oroville, she made a backward flip while airborne going a good 65 mph.

San Leandro will be represented by Harry Bartolomei, national Class D champ. Renoites will root for Jerry Van DeVeere and John Alden in the B Hydros. Jan Helder of Marysville will pit his youth with the veterans in his B Racing Runabout. National Champion F Runabout king, Chuck Parsons of Lodi will enter his famed "Chuck Wagon" but driven by Don Biagio of San Francisco.

Such names as "Chatterbox," Play Boy, Jack Pot, Twilight Zone and Tutts Putt will vie in the F Hydro Class. Suzie Q, Pipsqueak and Chopsticks are in the A Hydros. Betting money is with Miss Bust Out to ease by Lazy Bones and Iron Tail with the D Hydros.

Sponsoring Donner Lake Boosters Association will stage a huge barbecue on the west shore beach Saturday open to the public from 4 to 7 p. m. Half fried chicken will be the main course. $2 per adult and $1 per child under 12. Dancing at Donner Lake Lodge Saturday night will be climaxed by the crowning of a queen of the regatta. Trophies will be awarded in the new outdoor pavilion there.

Sabin Vaccine To Be Given Sept. 23

Announcement of the 14 Sabin-Oral-Sundays clinics in Placer and Nevada Counties to eradicate polio in one of the largest mass immunization projects in the two-county history was made this week by Dr. John Mathewson of Auburn, chairman of the SOS steering committee for the Placer-Nevada Medical Society, sponsors of the program.

Sabin-Oral-Sundays will begin September 23, with later feedings set for November 4 and December 16.

Clinics will be held at Truckee in the old elementary school and at Tahoe Lake school in Tahoe City, according to Dr. Ray Wiser, assistant Nevada County health officer.

"Every man, woman and child over the age of three months—even those who have had previously received Salk injections—should receive the Sabin oral vaccine against polio," Dr. Mathewson said.

Success of the campaign depends upon 100 per cent cooperation among the citizens of the community, the SOS chairman said.

PARADE IS MAJOR WEEKEND FEATURE

One of the most outstanding features of the weekend celebration here was the parade from Truckee to the Donner State Park in which scores of entries would have defied judges to make a choice.

While there were no awards given, the entire community participated in the affair and the entries were exceptionally good. The parade was headed by the Stead Air Force Base Color Guard and the Nevada Indian Band and earned the applause of the hundreds who watched it pass.

BUILDING IN DISTRICT CONTINUES UPWARD

H. G. Bergman, local county building inspector, reported that during August an increased number of residences are being erected in the east end of Nevada County.

The permits issued called for $130,870 in construction and fees were $1,044.

AT DONNER PARK

Bud Getty has transferred from Hearst Castle at San Simeon to be the historical guide for beaches and parks at the Donner State Park. He was accompanied by his wife and two children and the family will make this their permanent home.

Wagoners Finish Successful Trip In First Annual Trek

The nine wagons and scores of riders making up the first annual Truckee-Donner Horsemen wagon train from Reno to Donner Memorial State Park completed the difficult journey in fine style during the weekend.

The trek culminated with memorial services for all pioneers at Donner Monument Sunday afternoon when Rev. Anderson of Tahoe City eulogized the early day wagon people.

The trek started following the banquet Thursday evening at Reno during which Carol McKinley of Truckee was crowned queen. Her princesses were Bonnie Briggs, Julie Wyman and Deana Gill.

Lloyd Van Sickle proved to be a very able wagon master, keeping the train in line and without the loss of a single entry. An Indian raid, led by Cal McKinley at Woodchopper Springs was one of the entertaining features of the three day trip. Scouts included Lee Hall, who assisted Van Sickle and Gene Stark, with Sandy Van Sickle and Art Cook as assistants.

There were more than 150 in the caravan and at breakfast Sunday morning at Prosser Creek, 600 were served. The train entered Truckee Sunday at noon to participate in the parade to Donner Park, making a picturesque and colorful part of this feature.

Joe Lima's six little mules made a big hit with the parade spectators when on voice command they circled in rapid order with bells jingling.

After the ceremony at the monument, the tired wagoneers and horsemen disbanded but agreed that another trip next year is in order.

The initial test will be held on a quarter acre area when the technicians will regulate instruments in preparation for the major experiment on four acres next Tuesday in the same vicinity.

The test will involve firing the 400 tons of wood fuel which has been prepared by the Folsom inmates quartered near Hobart Mills. Results of the tests are classified and will not be revealed but are believed to be advanced studies of fire behavior and methods of control.

Officials from the forest service experimental station at Berkeley and U.C.L.A. technicians and engineers will conduct the experiments.

George Steed, Truckee district ranger on the Tahoe National Forest, said every precaution will be taken to prevent any fire spread. The area to be burned is surrounded on all sides for a mile by barren land and standing by will be an observation plane, two borate tankers, three trucks, a tractor, the Hobart "Hot Shot" suppression crew and other personnel, including three weather teams.

Unless weather conditions are ideal, the tests will be delayed, Steed said.

TAHOE CITY UTILITY REPORT IS OFFERED

TAHOE CITY — An analysis of the auditor's report on the financial condition and revenue over expense of Tahoe City Public Utility District shows that the district is relying on a special tax rate on properties within the district to help pay operating expenses and for retirement of bonds and the interest on same.

The annual audit of Harry M. Straine and Sons, published elsewhere in the Sierra Sun shows Exhibit B that there was a gain of $8,491.01 in the water department but a loss of $255.75 in the sewage department. Reading the righthand column, there is an overall gain of $8,234.26. After deducting $10,030.21 for depreciation the report shows a loss of $1,795.95 in general operations.

In "Other Income" the $681 premium on sale of bonds was for $11,000 general obligation bonds not sold in 1958 when the sewer extension was made on Fairway Drive.

The $4,197.79 in "Other Income," listed as interest and miscellaneous should be explained, according to C. W. Vernon, manager of the district who said, it is payments by the property owners of Lakeview Assessment District to retire their assessment bonds that finances their sanitary sewer system in 1958. The money goes into a trust fund to be paid to holders of the bonds. Looking back at Exhibit A it is noted that the district is charged with $22,381.40 "District Assessment Bonds." This figure is reduced annually by payments by property owners of the Lakeview Assessment District. This liability is offset by the $31,336.57 fixed assets in Exhibit A in favor of T.C.P.U.D. The $421.21 in Exhibit A is balance on hand in the Trust Fund. So, the collection and payments on the Lakeview Assessment District adds nothing to the cost of operations and maintenance of the P.U.D. but does add to fixed assets.

Vernon added, that beginning in 1960 the district was forced into improving the water system to keep abreast of the growth of the town and avoid an increase in insurance rates. A 500,000 gallon water storage tank was installed replacing a 36,000 gallon storage and a 12" water main replaced a 60-year-old 5¼" main all at a cost of $46,782. The next year the sanitary engineers for the district recommended improvements in pumping stations and the sewage treatment plant. This two year program in two phases resulted in a total cost of $69,203.90 The second phase of this project is now nearing completion.

In terms of value, cattle and calves, dairy products and cotton are the most important farm products sold in California.

BIBLE CHAPEL GROUP ENJOYS PICNIC TRIP

Eighteen junior pupils of the Sierra Bible Chapel Vacation Bible School were given a picnic and treat for a day's outing on August 31. Twenty-five went along counting the chaperons and drivers of three cars for the trip to the Verdi Peak Lookout where a scavenger hunt and cookout were enjoyed.

Mr. and Mrs. Lester French, employes at the lookout and friends of the church group, were happy to show all the children how forest fires are spotted and reported. All were impressed by the gorgeous view from this point and everyone agreed that the trip was a success.

The closing day program for Bible School was held August 24 at which time each class group presented some representative portion of their training for the past two weeks. The whole school joined in singing songs and choruses that they had learned and the program was presented and directed by the junior group of boys and girls. "GEE, I DIDN'T MEAN TO HURT ANYBODY!"

It all started when I was practicing with my new rifle.
Just for fun I took a shot at one of these insulators on the power pole.
I didn't think that it would cause a power failure somewhere . . .
. . . and maybe stop a traffic signal from working.
And I sure didn't think this would happen.

No, youngsters don't often stop to think about the harm a shattered insulator can cause. That's why it's up to you, Dad, to teach your boy good rifle habits. A power interruption because of a broken insulator can cause immediate hardship, inconvenience, even suffering to many people miles away. A chipped insulator can break months later in a severe storm and make it necessary for a lineman to risk his life needlessly to make the repair. It's true . . .
BREAKING AN INSULATOR COULD COST A LIFE!

Signs of the season—winter predictions. First one heard thus far—Piaute Indian legend, "Lotsa pine nuts, lotsa snow." Reports on the pine nut situation—Lotsa pine nuts this year.

Already to be snowed in—knitting, stamp collection, genealogy research, holiday work shop end of this month to learn mosiacs, ceramics, flower arranging, corsage making, and special work Lee has planned—any other suggestions?

Bennie Ferrari of Kings Beach has entered University of San Francisco. Will try out for a basketball scholarship after a talk with the coach which indicated he was eligible. Bennie is the son of Ben and Nora Ferrari and was graduated from Tahoe-Truckee High School last June.

Carl Shaff, son-in-law of Ben and Nora Ferrari, is the principal at the new Incline Village grammar school. Carl and wife, Marilyn, plan to locate in the area later when they will move from Reno.

Happy birthday to Sharon Signorino on September 2 of Temple City. Sharon is the daughter of Jimmy and Emmajean Hume, Crystal Bay residents, Emmajean is visiting Sharon at the present and Jimmy will join her after closing of the North Shore Club.

Congratulations to Eddie Dillon of Kings Beach who won the North Shore Club's own golf tournament. Wife, Maggie, says this is the first time in 13 years she didn't buy him in the Calcutta pool — so, of course, he won. Lucky 13?

Connie Long of Kings Beach spent the day in San Francisco Monday—a fun day away from toil.

Richard "Mex" Springer of Incline Village is recuperating at Washoe Medical Center in Reno. Mex underwent major surgery. Wife, Mae, is at the home of Mex's mother during his hospital stay—about a week. Cards may reach Mex at the hospital.

Mel Orr of Tahoe Vista is leaving the area after spending the summer working at Cal-Neva. No destination.

Dan and Beverly Milich of Reno welcomed their fifth child on September 10 at Washoe Medical Center in Reno. The newcomer has been named Todd and is awaited at home by Mark, David, Shiri and Jeffry.

Father, Dan, is well known on the north shore.

TELSTAR EXPLAINED AT TAHOE MEETING

KINGS BEACH—More than 100 persons attended a meeting at the Crystal Bay Club, on Lake Tahoe's north shore, and heard Jack Thomas explain the mysteries of the Bell System's new satellite, Telstar. The session, jointly sponsored by the Lake Tahoe-Sierra Chamber of Commerce and the Pacific Telephone Company was held last Thursday evening.

Thomas displayed a one half scale model of the Telstar, which is a far cry from Alexander Graham Bell's original thoughts on voice transmission. He said that the new satellite was a test vehicle that circled the earth nine times every 24 hours at a speed of 16-17 thousand mph, and which can amplify and redirect 600 messages at a rate of 10 billion times the strength of the signal reaching it. Telstar's elliptical orbit around the earth ranges from less than 600 miles out to more than 3,500 miles from the surface of this planet, he explained.

226 VETERANS GET LOANS IN COUNTY

A total of 226 Nevada County veterans have availed themselves of the opportunity to buy homes or farms through the distinctive Cal-Vet farm and home purchase program for an overall dollar total of $2,223,000 since the program's inception in 1922, according to H. E. Nolen, county veterans service officer.

The figures were compiled as of June 16, 1962.

A further breakdown shows there are 158 active Cal-Vet home loans in the county amounting to $1,748,000 and two farm loans active in the amount of $47,000.

At the same time, says Nolen, 64 home loans and two farm loans have been paid in full.

The California total as of June 16 came to 192,607 and an overall dollar volume of $1,881,745,000.

Of the California total, 64,932 contracts have been paid in full

NEW LICENSE PLATES AFTER JANUARY 1

SACRAMENTO — (CNS)—Are your present license plates dull and listless? Are they wrinkled? Is the fact they're the same old color as they have been since 1956 giving you frustrations every time you step into your car?

Maybe you've seen some of the shiny new plates, with black background and bright yellow letters (chrome yellow is the actual description) and wonder why you can't grace the family car with a set of these.

Be patient. Your time will come, probably after next Jan. 1. And when you get those new plates, they'll probably have to last you for 10 years.

The department of motor vehicles said the few new black background plates that are beginning to show up here and there are confined to publicly owned vehicles. These are newly purchased vehicles where the ownership will not be changing and the new plates are issued for them.

The common or great mullein seen along California highways is a native of Asia and the shores of the Mediterranean Sea.

SEPTEMBER NAMED KEEP STATE GREEN

SAN FRANCISCO — September has been named "Keep California Green Month" throughout California, according to an announcement from Paul Shively, president of Keep California Green, Inc., voluntarily sponsored fire prevention — education group headquartered here.

Following Governor Brown's lead, county governments from San Diego north to the Oregon border, have adopted resolutions "as a means of focusing public attention on the necessity of preventing forest fires" and to "commend all residents to take an active part throughout the year to Keep California Green, and ever productive."

Fire losses in California last year were the highest in a decade, according to a Keep Green survey of the responsible protection agencies. While the 1962 record is, so far, somewhat improved, we are now just entering the period of the year—early fall—where the danger of fires is historically at the highest.

Governor Brown agrees that we all have an economic dependence upon wild lands. "Our present and our future are both bound inseparably with forest products and the foodstuffs, the recreation and the water needs dependent upon this irreplaceable resource."

The governor urges each citizen to "take a personal responsibility to Keep California Green during this critical 1962 fire season."

Keep Green President Shively points out that an average of two-thirds of the fire starts in any given year are man-caused. Thus more than 4,660 wildfires of the 1961 7,443 total could have been prevented.

The rooms were nicely decorated with flowers from her daughter's garden.

HARKNESS SPEAKER AT SQUAW SESSION

SQUAW VALLEY — Robert L. Harkness, deputy director of California's department of finance, met Friday with 60 businessmen of Squaw Valley-North Lake Tahoe and Truckee Donner, to hear plans for the formation of a civic convention bureau for that area using the $5,000,000 Blyth Memorial Auditorium in Squaw Valley State Park as it main attraction.

Harkness was enthusiastic about the plan which he said "was not a huckster's dream but rather a solid meaty proposal which merited the approval of all business in the area as well as consideration of state administrative offices."

State Park Superintendent E. Paul Griffith announced that the state's $35,000 crash program to beautify Squaw Valley's Park had been nearly completed and he thanked the civic groups and individuals who had assisted in the program. Harmon Rowe, state architect in charge of Squaw Valley also told the group that the state planned further improvements of the park's facilities as financing became available.

According to Clarence Richard, director of Squaw Valley Inn and a spokesman of the convention group the only disapproving voice came from a representative of Squaw Valley Lodge. He said the lodge representative was satisfied with present economic conditions and felt a joint effort by area-wide businessmen was not needed.

Ivan Tofft, John Marquette and William Keller represented the Truckee - Donner area at the meeting.

August Date—

Judy McGwinn was feted on her birth date, August 30 with a family dinner and theater party.

DONNER DOINGS

Mr. and Mrs. M. Dufek of San Francisco are enjoying the erection of their log cabin on their property at Donner Lake. The logs are being laid in place after the fashion of the pioneers, built for attractive appearance and solid construction.

* * *

The Ted Franklin family has moved from their former location at Donner Lake to the area back of Tamarack Ski Club. Their former neighbors already miss the pleasant couple.

* * *

Danny Rechenmacher, 17, son of Mr. and Mrs. F. C. Rechenmacher, Donner Lake summer residents from Reno, returned to Reno High School a hero, after he was instrumental in saving a couple's house from destruction at Auburn while visiting his grandparents, Mr. and Mrs. Fred Rechenmacher.

The youth was leaving a relative's home when he noticed smoke coming from the house of Mr. and Mrs. Fred Truelove, a quarter of a mile away.

He investigated and found a fire had gained considerable headway in a carport adjoining the dwelling.

The fire had started in a lugbox containing two water jugs, apparently because of the sun shining on the glass. It had spread from the lugbox through grass and burst into furious flame when it hit the wheels of a trailer in the carport.

The youth raced to a fire hose and the first water exploded the glass bottles. In a few minutes, however, he had everything under control.

Tahoe Items

The John Nerondes have been dividing their time between Tahoe Park and Sacramento this year.

* * *

Friends at Tahoe City were glad to see Gene Walker who came from Texas with his bride to visit his niece and family, the Dick Carnells. Walker is well known in this district where he lived for some time.

* * *

Leaving Tahoe City are the Victor Costas, going to Oakland and Mr. and Mrs. G. W. Stimson who will winter at Palm Desert.

the keys to the museum from Joseph Houghteling, chairman of the state park commission, who dedicated the Bizz Johnson audio-visual room of the new building.

Band Selections

During the parade and at intermissions during the ceremonies, the Nevada Indian Band played for the enjoyment of all. The color guard from Stead Air Force Base, raised the flag which flew over the national capitol, together with the California state flag a gift of the park service.

The invocation and benediction were given by Rev. Sidney C. Smith of the Church of the Mountains.

Humor was injected into the proceedings by Archie D. Stevenot, sublime noble grand humbug of E Clampus Vitus who proclaimed all present members of the fun order until sundown.

Jack Stowe, park superintendent, introduced the members of his staff and extended an invitation to all to return often to visit the park and museum.

Officials Attend

State officials attending included Senator Ronald G. Cameron and Paul J. Lunardi, assemblyman.

Other officials on the platform of honor included Sterling C. Cramer, member of the state park commission; DeWitt Nelson, department of conservation, who spoke briefly; R. Coke Wood, conference of California Historical Societies executive secretary; Kenneth M. Castro, vice president of the Society of California Pioneers; Mrs. Verna Dunshee, head of the Conservation Clubs of California; Earl P. Hanson, deputy chief of the division of beaches and parks; E. W. Hampton, acting state architect; Orval B. Johnson, direct construction supervisor of the division of architecture; John Michaels, beaches and park official; Robert F. Uhte, senior architect; Chief Kiba of the Piaute Indians; Vernon D. Chamberlen, general manager of Georgia-Pacific Corp., Henry Branagh, supervisor of the Tahoe National Forest and others.

A plea was made for relics and artifacts of the period between 1840 and 1870 for display at the museum was made and anyone having such items is asked to contact Superintendent Stowe at the park.

Presently the museum is well stocked with miscellaneous items which tell of the Sierra trail blazers, the wagon parties, mining in the area, the railroads influence, the Chinese, the community of Truckee, lumber and the Indians. One of the most interesting items is the Patty Reed doll, which was carried by Patty on the fateful Donner Party expedition. This item will be on display at the museum from May through October and the remainder of the year will be at Sutter's Fort in Sacramento.

The museum is constructed of native stone and wood and is beautiful, well planned and easily accessible.

HARKNESS TO SPEAK AT CHAMBER MEET

KINGS BEACH—The Lake Tahoe-Sierra Chamber of Commerce announced today that they had obtained Robert L. Harkness, deputy director of California's department of finance, as featured speaker for their annual membership meeting and election of offices. Harkness will share the September 20 chamber spotlight with Ernie Riley, who was voted North Sierra Lake Tahoe's outstanding citizen for 1962.

This annual chamber function is always a gala affair and will be held at the Crystal Bay Club. A no host dinner banquet will be served at 7 p. m. preceding the evening's program of election of new chamber directors, presentation of the "Man of the Year" award, and Harkness featured talk on the potential of the North Lake Tahoe region as a recreation and convention center. Harkness recently visited this area and was enthusiastic in his praise for the work accomplished here by the action of united civic groups, according to a chamber spokesman.

Riley, who will receive the chamber outstanding citizen award, was chosen for his many charitable efforts of the past year. He spearheaded the blood bank drive for two Lake Tahoe youngsters, Donald and Marie Bardo, who were stricken with incurable Mediterranean Anemia, also called Cooley's Anemia. During this activity he discovered a lack of reading material for inmates of the Nevada State Penitentiary, where he had gone for the tremendous supply of blood that was needed to help the youngsters. This program called "Books for Crooks" has received area-wide attention and may aid rehabilitation of some of Nevada's offenders.

NANCY SUE WATTS IS HONORED AT SCHOOL

Nancy Sue Watts, daughter of Mr. and Mrs. Sherman H. Reams, Truckee, is enrolled in her second year of the EPIC (Experimental Program, Instructors for Colleges) program at the University of California, Santa Barbara, for the 1962-63 academic year.

Under the auspices of the Ford Foundation and administered by UCSB, this program has been designed to stimulate the interest and awareness of the best students in aptitude and ability in college teaching as a career and to explore methods by which college teachers may be recruited and trained.

Outstanding students are usually selected to take part in the EPIC program in their junior year at UCSB. In addition to regular academic work, the students participate in a special seminar with their faculty advisor devoted to advanced study in preparation for graduate level. The student also undertakes his own selected special project to begin his familiarization with the problems of college teaching and research. The project is one not covered in the normal university curricula. Miss Watts has chosen English as her field of intensive research.

In the graduate year, the EPIC scholar will become a regular graduate teaching assistant, take part in a seminar on college organization, lecture preparation, curriculum and obligations of a college professor. The regular courses will result in the granting of the MA degree and for some, their junior college teaching credentials.

HIGHWAY MEETING SET SEPTEMBER 20

California Division of Highways officials today offered a reminder of a public hearing September 20 at Meeks Bay for discussion of the future routing of State Sign Route 89 along the west shore of Lake Tahoe in El Dorado and Placer Counties from Bliss State Park north to Tahoe City.

The hearing will start at 10 a.m. in the Meeks Bay Theater.

Alan S. Hart, assistant state highway engineer in charge of District III, Marysville, urged all interested persons, civic organizations, and governmental units to attend the hearing and to express their views and submit any pertinent facts they may possess concerning the proposed project.

Hart said at the present time it is impossible to predict when funds will be available for construction.

A New York life insurance company says its insures 571 persons who are aged 91 or more, of whom 84 per cent are women.

The most northern gardens in the world, growing broccoli, radishes, lettuce and turnips, are in Umanak, Greenland, latitude 70 degrees, 40 minutes.
